Tree and Bench Donation Program

An effective park system is successful through the efforts and involvement of those that use them. A Tree or Bench Donation in one of our parks provides the perfect way to mark a special occasion, contribute to the beauty of the park, or to commemorate the life of someone special to you.

Tree and Bench Donation Program

Manchester Parks, Recreation, & Arts

“Parks and playgrounds
are the soul of a city.”
– Marty Rubin

Tree Donation

To get started, please fill out the attached form. We will contact you to go over the details of planting and desired location. Then simply select & purchase your tree from a nearby nursery. When you notify us of your purchase, we will pick the tree up at the nursery and schedule it for planting. If you would like a plaque to be placed at the base of the tree, there is an additional \$45.00 fee.

Bench Donation

Another way to contribute to the parks is by donating a bench for others to use to enjoy their surroundings. We have two types of benches that can be purchased for placement in our parks. Each bench includes an engraved plate.

Wood Bench \$750
Plastic Coated Metal \$400

We plant trees twice a year, once in the spring and once in the fall. For beauty & longevity, we recommend the following trees for placement in our parks:

Oak Species	Maple Species
Flowering Dogwood	Japanese Zelkova
Katsura	Blackgum
Yellowwood	Eastern Redbud

After your tree has been planted or bench has been installed, if desired, we can send an acknowledgement of your donation.
